INTERNET SAFETY

Dear parent/guardian,

At Pen Y Dre we are concerned about the safety and welfare of our learners when using the Internet. Learners are taught how to use the Internet safely and are regularly reminded about not giving their personal details to anyone online. All Internet use is monitored and unsuitable websites are filtered out as soon as we become aware of them.

In order to help you keep your son/daughter safe inline at home I have enclosed a CD guide for parents called "Know IT All" (A guide to getting the most out of the Internet and keeping children safe online) produced by ChildNet International. This is an excellent resource and I hope you can find the time to go through the contents of the disc with your son/daughter.

I have also taken the opportunity to enclose the latest version of our e-Safety Policy. The agreement at the back of this document can also be found in all learners' organisers. Please take the time to read and sign it.

Yours faithfully,

D.W.Morgan
